

CENTRE OF SECURITY EXCELLENCE

Securing Corporate Special Events

(Course Ref: SCSE)

Course Overview

This course is specifically designed for security, facilities and other managers in both public and private sector corporations who have a need to prepare for the security of special events whether on a regular, or infrequent basis.

Learning Outcomes

On completion of this course, delegates will be able to:

- Undertake risk assessments for corporate special events
- Understand the methodology of defining, assessing and revising any general and specific threats to such events
- Undertake formalised planning for special events
- Implement proactive security measures to minimise risk

Who Should Attend

This intensive course is ideal for Security Managers, Facilities Managers and all those charged with the management of security at corporate events.

Course Contents Includes

- Defining and categorising corporate special events
- Preparing the security protocol
- Planning in line with the 'Eight Principles of Security'
- Carrying out a dedicated threat and risk assessment
- Defining and allocating roles and responsibilities
- Setting and implementing the human and technical security solutions
- Understanding and preparing for contingencies and emergencies
- Liaising with the police and other relevant law enforcement and emergency services

Duration: 1 day.
